20.14 The safe harbor rights described in Subparagraph 26.8.2 of the Settlement Agreement and described in paragraphs 20.8 to 20.16 are subject to the approval by the Gila River Adjudication Court and the signatories to this stipulation explicitly recognize the right of the Community, SCIDD,

and the United States on behalf of the Community and Allottees and in its capacity as owner of all Water Rights described as belonging to the plaintiff in articles V and VI (excluding those described in article VI(2)) of the Globe Equity Decree to enforce their rights under the Globe Equity Decree in the Gila River Adjudication Court for actions in violation of or contrary to the terms, conditions, limitations, requirements or provisions of Subparagraph 26.8.2 of the Settlement Agreement, including the provisions of Subparagraph 26.8.10 of the Settlement Agreement.

20.15 The Community, SCIDD and the United States on behalf of the Community and Allottees and in its capacity as owner of all Water Rights described as belonging to the plaintiff in articles V and VI (excluding those described in article VI(2)) of the Globe Equity Decree agree to not object to the use of Water by a Non-GE 59 Water User as required by public authorities to respond to declared emergencies for the safety and protection of the public.

21.0 CONFIRMATION OF RIGHTS

21.1 Through the Settlement Agreement, the Settlement Parties, including the United States in all of its capacities except as trustee for Indian tribes other than the Community, ratify, confirm, declare to be valid, and shall not object to, dispute, or challenge in the Gila River Adjudication Proceedings, or in any other judicial or administrative proceeding, the rights of:

21.1.1 the Community, Members, Allottees, and the United States on behalf of the Community, Members, and Allottees to Water or to the use of Water, as described in this Agreement and in the Act;

21.1.2 SRP and its shareholders to the waters of the Salt and Verde rivers, which rights are appurtenant to the lands of SRP and its shareholders, and are described, stated, confirmed or established in the documents referred to in Subparagraph 28.2.1 of the Settlement Agreement;

21.1.3 the Buckeye Water Conservation & Drainage District, and the Buckeye Irrigation Company and its shareholders, to the waters of the Salt, Verde and Gila rivers, which rights are

appurtenant to lands currently provided with Water by the Buckeye Irrigation Company or within Buckeye Water Conservation & Drainage District, and which rights are described, confirmed, or established by virtue of the documents, decrees and enactments referred to in Subparagraph 28.3 of the Settlement Agreement;

21.1.4 the City of Phoenix in the waters of the Salt and Verde rivers, which rights are described, stated, confirmed or established in the documents referred to in Subparagraph 28.5 of the Settlement Agreement;

21.1.5 the United States in the waters of the Salt River, which rights are described, stated, confirmed or established in Permit to Appropriate Surface Waters of the State of Arizona No. R-2128 issued by the State of Arizona to the U.S. Bureau of Reclamation.

21.1.6 the cities of Phoenix, Scottsdale, Mesa, Chandler, Glendale and Tempe in the waters of the Salt River, which rights are described, stated, confirmed or established in the documents referred to in Subparagraph 28.7 of the Settlement Agreement;

21.1.7 CAWCD in the waters of the Agua Fria River, which rights are described, stated, confirmed or established in Permit to Appropriate Surface Waters of the State of Arizona No. 33-89719 issued by the State of Arizona to the CAWCD; and

21.1.8 RWCD and its landowners to the waters of the Salt and Verde rivers, which rights are appurtenant to RWCD lands and are described, stated, confirmed or established in the documents referred to in Subparagraph 28.8 of the Settlement Agreement.

21.2 In addition to the recognition of rights described in subparagraphs 21.1 to 21.1.8 of this Stipulation, all of the Settlement Parties, including the United States in all of its capacities except as trustee for other Indian tribes other than the Community, recognize that Water uses on the urbanized portions of the lands within SRRD and RWCD have changed and will continue to change from

agricultural uses to M&I Uses. The Settlement Parties including the United States in all of its capacities except as trustee for Indian tribes other than the Community agree that such changes in use are valid, and that Water appurtenant to lands that are now or will become urbanized within a particular municipal or other water service area may be delivered for M&I Uses on such urbanized lands and the Water Rights appurtenant to such urbanized lands shall carry the original priority dates. With the exception of type of use, these Water Rights are as described in the Kent Decree, the Lehane decision (*W.C. Lehane v. Salt River Valley Water Users' Assoc., et al.*, Cause No. 32021-C) and the documents referred to therein. No Settlement Party, including the United States in all of its capacities except as trustee for Indian tribes other than the Community, shall challenge or otherwise object to these rights on the basis of change of use, nature of delivery, or on any other bases in any judicial or administrative proceeding. As to urbanized lands within the SRRD, the Settlement Parties including the United States in all of its capacities except as trustee for Indian tribes other than the Community agree that the historical practices of the cities and towns located within the geographic limits of SRRD and SRP and the general nature of the rights are appropriately described in the Water Commissioner's Report of June 3, 1977, a copy of which is attached as Exhibit 30.8 to the Settlement Agreement.

21.3 Except as provided in Subparagraphs 6.2, 6.3, 25.12, 25.24, 28.1.4 and 30.9 of the Settlement Agreement, and subject to Subparagraph 28.1.3.1 of the Settlement Agreement, the Community and the United States on behalf of the Community, Members and Allottees have agreed to neither challenge nor object to claims for use of Water from the Gila River or its tributaries; provided, however, that the Community and the United States on behalf of the Community, Members and Allottees reserve and retain the right to challenge or object to any claim for use of or call for Water from the Gila River or its tributaries that includes both: (1) a priority date of 1924 or earlier, and (2) a point of Diversion at or downstream from the Diversions into the Gila Bend Canal and the Enterprise Canal.

21.4 Notwithstanding the Community's retention of its right to challenge or object to any claim for use of Water from the Gila River or its tributaries set forth in Subparagraph 28.1.3 of the Settlement Agreement, the Community and the United States on behalf of the Community and Members (but not Members in their capacity as Allottees) shall neither challenge nor object to claims for use of Water from the Gila River or its tributaries by any Gillespie Diverter that executes the Form of Paloma Agreement.

21.5 The Community and the United States on behalf of the Community, Members and Allottees reserve and retain the right to challenge or object to any claim for use of Water by the persons or entities referred to in Subparagraph 28.1.4 of the Settlement Agreement.

21.6 Except as provided in Subparagraph 28.1.4 of the Settlement Agreement, the Community and the United States on behalf of the Community, Members and Allottees shall neither challenge nor object to claims for use of Water from the Salt, Verde, Santa Cruz and Agua Fria rivers, and their tributaries.

22.0 OTHER PROVISIONS

22.1 No modification of the Settlement Agreement shall be effective unless it is in writing, signed by all Parties, and is approved by the Gila River Adjudication Court. Notwithstanding the foregoing, Exhibits to the Settlement Agreement may be amended by the parties to such Exhibits to the Settlement Agreement in accordance with their terms, without court approval, unless such approval is required in the Exhibit to the Settlement Agreement or by law; provided, however, that no amendment of any Exhibit may violate any provisions of the Act, or the Settlement Agreement, or adversely affect the rights under this Agreement of any Party who is not a signatory of such an amendment.

22.2 Execution of the Settlement Agreement by the Governor of the State constitutes the commitment of the State to carry out the terms and conditions of Subparagraphs 5.3, 8.23, 25.1, 26.8.1,

27.4 and 30.5 of the Settlement Agreement. Except as provided in the preceding sentence, it is not intended that the Settlement Agreement shall be determinative of any decision to be made by any State agency in any administrative, adjudicatory, rule making, or other proceeding or matter. Except as provided in the Settlement Agreement, nothing therein shall be construed as a waiver of any rights that the State has as to its natural resources.

22.3 Any Party shall have the right to petition any court of competent jurisdiction, but not the courts of the Community, for such declaratory and injunctive relief as may be necessary to enforce the terms, conditions, and limitations of the Settlement Agreement and monetary relief as provided for in the Settlement Agreement. Nothing contained in the Settlement Agreement waives the right of the United States, SCIDD, the Community, or the UVD Parties to object to the jurisdiction of the courts of the State to adjudicate any dispute arising under the Settlement Agreement or the Act. Furthermore, nothing in the Settlement Agreement waives the right of any Party to object to the jurisdiction of any Federal Court to adjudicate a dispute arising under the Settlement Agreement or the Act.

22.4 Several of the sources of Water described in Paragraphs 5.0 through 16.0, and 18.0 of the Settlement Agreement are dependent upon the existence of conservation, storage and other facilities, including Water delivery facilities, to deliver such Water to the Community. The destruction of any of these facilities by any cause shall not permanently extinguish the Community's right to receive Water otherwise made available by the affected facility; however, such destruction may relieve the other Parties of the obligation to deliver such Water to the Community until the affected facility is repaired or replaced or other suitable facilities have been agreed to by the principal Parties in interest as provided by the Settlement Agreement. Any Settlement Party responsible for repairing or replacing an affected facility under other contractual arrangements shall have that same obligation under the Settlement Agreement. In the event no Settlement Party has such an obligation, all of the Parties, including the Secretary, shall use all reasonable efforts to provide a permanent equitable substitute

source for the affected Water supply. The provisions of this paragraph and Subparagraph 30.11 of the Settlement Agreement shall not apply to CAWCD.

22.5 No part of the Settlement Agreement should be construed, in whole or in part, as providing consent by any of the non-Indian Parties to the legislative, executive or judicial jurisdiction or authority of the Community in connection with activities, rights, or duties contemplated by the Settlement Agreement and conducted by any of those Settlement Parties outside the exterior boundaries of the Reservation. The Settlement Agreement should not be construed as a commercial dealing, contract, lease or other arrangement that creates a consensual relationship between any non-Indian Party and the Community so as to provide a basis for the Community's legislative, executive or judicial jurisdiction or authority over the non-Indian Parties to the Settlement Agreement under *Montana v. United States*, 450 U.S. 544 (1981) for activities conducted outside the exterior boundaries of the Reservation. The activities, rights or duties conducted or undertaken by the non-Indian parties pursuant to the Settlement Agreement outside the exterior boundaries of the Reservation shall not be construed as conduct that threatens or affects the political integrity, economic security or health and welfare of the Community so as to provide a basis for the exercise of the Community's legislative, executive or judicial jurisdiction or authority over the non-Indian Parties to the Settlement Agreement under *Montana v. United States* 450 U.S. 544 (1981). Benefits and rights accruing to the non-Indian Parties to the Settlement Agreement are provided as consideration for benefits and rights accruing to the Community, and shall not be construed as privileges, benefits, tribal services or other advantages of civilized society provided by the Community that would justify the imposition of the Community's legislative, executive or judicial authority over those Parties in regard to the activities, rights and duties conducted outside the exterior boundaries of the Reservation. The enactment of legislation authorizing or ratifying the Settlement Agreement shall not be construed as a congressional delegation of authority

to the Community of legislative, executive or judicial jurisdiction or authority over the non-Indian Parties hereto.

22.6 Nothing in the Settlement Agreement shall be construed to quantify or otherwise affect the Water Rights, claims or entitlements to Water of any tribe, band or community other than the Community.

NOW THEREFORE,

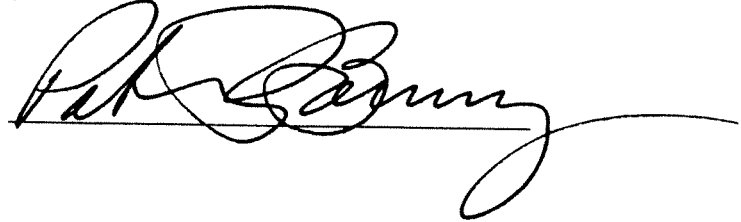

The parties to this Stipulation request that, upon this Court's approval of the Stipulation and Settlement Agreement, and upon the date the Secretary of the Interior causes to be published in the Federal Register a statement of findings that the conditions set forth in Section 207 of the Settlements Act have occurred, this Court enter the Judgment and Decree attached as Exhibit 3 hereto fully, finally and permanently adjudicating all water rights claims of the Community, Members and Allottees, and the United States acting on behalf of the Community, Members and Allottees, to the water supplies within this Court's jurisdiction as provided by the terms of the Settlement Agreement.
